Charles Kazda, Harrison Addition Development Group and other interested parties were present to discuss the request to install Monroe Street. Chairman Dunwiddie stated that this issue had been discussed at the July 26, 2010 Committee meeting at which time it was recommended to Council that the installation be completed at the property owner's expense and to deny special assessing for the project. It was stated that the City is under no obligation to construct the street but is willing to allow the street to be installed. It was stated that the next step for the Harrison Addition Development Group would be to draft a developer's agreement and submit to the City for review. It was stated that the street would be dedicated to the City once complete per the provisions of the developer's agreement.
