DISCUSSION: THROUGH STREETS

Information was provided by Chief Christensen stating that the City currently does not have any streets designated as through highways or streets as permitted by Wis. Stats. A listing of streets for consideration to be designated as through highways or streets was provided. It was stated that designation would provide guidance as to the appropriate use of stop signs as well as ensure stop signs are utilized in accordance with Wisconsin statutes. The proposed action would eliminate stop signs currently in place on W. Court Street at Spencer Street and E. First Avenue and N. Sandy Lane. Motion (McClory/Payson) to recommend authorizing an ordinance to designate certain streets as through highways contingent upon review of three additional streets discussed. Motion carried.

ADJOURNMENT

Motion (Payson/McClory) to adjourn at 5:50 p.m. Motion carried.
