Home → Municode Library (Legacy) → Printing → How do I print from the web site?

### 5.1. How do I print from the web site?

1. Clicking "print" will print the entire document displayed in the right hand frame.

2. To print a portion of the document, such as a section, highlight text, and then choose print from the browsers file menu. When that opens choose the "selection" radio button and then click the print button.
