Sample of Scale Plot Plan – Directions

1. List the direction of north on the plot
2. List what the scale is (e.g. 1'=30')
3. Draw all structures existing and proposed on the plan to scale
4. Show location of well and septic
5. Be sure that the setbacks listed on the application are the same as on the plot plan
6. Label all structures
7. Setbacks are the distances from the closest point of a structure to a lot line
8. Show all streets that border the property
9. Setback requirements with a scaled plot plan are one and one half times the normal requirement that would be accepted with a plat of survey. EX: If the zoning requirement setback from the rear yard to the structure is 50 feet, it would be 75 feet if you are using a scaled plot plan. (A plat of survey is a survey done by a Wisconsin licensed surveyor).
10. Show the location of the driveway. This locates the front of the structure for zoning purposes

This is the minimum of information that is required

**WITHOUT THIS INFORMATION YOUR APPLICATION WILL BE DENIED AND

Cautionary Statement To Owners Obtaining Building Permits

101.65(lr) of the Wisconsin Statutes requires municipalities that enforce the Uniform Dwelling Code to provide an owner who applies for a building permit with a statement advising the owner that:

If the owner hires a contractor to perform work under the building permit and the contractor is not bonded or insured as required under Ss. 101.654 (2) (a), the following consequences might occur:

(a) The owner may be held liable for any bodily injury to or death of others or for any damage to the property of others that arises out of the work performed under the building permit or that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

(b) The owner may not be able to collect from the contractor damages for any loss sustained by the owner because of a violation by the contractor of the one and two family dwelling code or an ordinance enacted under Ss. 101.654(1) (a), because of any bodily injury to or death of others or damage to the property of others that arises out of the work performed under the building permit or because of any bodily injury to or death of others or damage to the property of others that is caused by any negligence by the contractor that occurs in connection with the work performed under the building permit.

Additionaly: Wisconsin Statute: 101.6 Compliance and penalties. (1) “Every builder, designer and owner shall use building materials, methods and equipment which are in conformance with the one and two family dwelling code.”

Consequently: If the owner signs the Permit Application, the owner is held responsible for any code violation, Orders for Correction and/or citation(s) that may be issued in association with the Permit.

If a contractor signs the Permit as agent for the owner, the contractor is held responsible for any code violations, Orders for Correction and/or citation(s) that may be issued in association with the Permit.
